

Chairman's Note to Members

Given the current situation and the advice about social distancing, it will come as no surprise that the committee has decided that it is socially responsible to defer the opening of our season for the present. The lawns will not therefore be opening before 18th May. We will be discussing an opening date again at the end of April and I will be in touch with a further update after our virtual committee meeting on the 30th April.

It follows that the dates that we gave you for our open day and the taster sessions will be postponed.

The Croquet Association have cancelled all CA events up to the end of May. The South West Federation have postponed all league matches booked prior to the end of May, so the intention is that those fixtures will be re-booked later in the year. We only have 4 fixtures affected by this. For those who have entered tournaments, the managing clubs will make their own decisions and will no doubt contact those entrants.

Our intention is to extend our season into the autumn in the expectation that current limitations will have gone.

We are of course in the same boat as the rest of society.

A sign of the times is that a common sign off now is.....

Keep Safe

Tim
