

Chairman's Note 25th March 2020

An update for members on our site progress.

The overseeding has been done together with the fertilising of the lawns. We now of course have a hiatus during the "stay at home" period but our groundsman will be attending to the lawns thereafter. This is very much Plan B as he had been expecting to spend this time working up the condition of the ground. Paradoxically we could now do with a little rain to nurture the seeded site. However, enjoy the sunshine at home while it lasts!

Do you know of any members who are in the "not allowed to go out" category who have no-one to help them with food shopping? If so could you give them a hand, or if that is not possible, or if you are in that position yourself, let Iain know? We have no arrangements at present but would like to see if there is a need.

Tim
